**Subject:** LDW - Passive Deposition Sampling - R16 - No Samples For Analysis

Hi Fritz;

I just received a call from Tammy. The samplers at Beacon Hill and Georgetown were filled to the rim of the carboy with water. Because we may not be able to get a representative sample, I told Tammy not to collect the samples from this round (R16: 12/05/06 – 12/19/06). Therefore, there will be no samples submitted to KCEL for this round.

Dana and Tammy are proceeding with placing the R17 samplers. We will see what transpires with the weather over the next couple of weeks.

Thanks,

Bruce
